## INTERDISCIPLINARY PROGRESS NOTES

Date & Time	Document significant events during clients course of treatment; implementation of treatment plan and response to treatment. Sign and title all notes.	Dept. or Discipline
4/20/00 120pm	MHL note S) Riggins seen in J3-71 for brief counseling to address problem #1 of treatment plan. He expressed no concerns other than request to see Dr. Bawazer. He said that he would not refuse the next evaluation. 2) Speech clear and of normal flow, R3 oriented, euthymic, thought processes appeared goal directed, concentration good, no objective symptoms of serious mental illness. 1) Riggins has dx of schizoaffective 50 and ASPD. 2) Continue to monitor. S. Mitten, PhD Psych Supervisor Richard Stoner PA2/Reg Trainee.	
4.25.00	"PSYCHIATRIST NOTE" See today, alert, cooperative and stable. "PLEASE SEE DICTATION"	
5/5/00	4/25/00 Outpatient Psychiatrist's Progress Note RIGGINS A188-083 Subjective: 1) "I am staying out of trouble for the past two months. I have no tickets. In my cell I read. I would like to go to general population. Let me to go to Oakwood first." He was told there was no need to go to Oakwood, the team will decide whether he needs to go to Oakwood or not. 2) His medication is stabilizing him and he is okay, as he stated. Mental Status Examination: Mr. Riggins is 6'4" tall, weighs 169 lbs., African-American male. He is clean in his appearance, alert, friendly and cooperative. Speech of normal flow, coherent and relevant. His affect is euthymic. Thinking process is goal directed. He is not confused, not delusional, not paranoid, no suicidal thinking. His judgment and insight both were limited. Assessment: He carries the diagnosis of schizophrenia complicated by antisocial personality disorder, however, during this evaluation he is friendly, cooperative and seems stable. Tx Plan: 1) Will continue his medication in the form of Loxitane 25 mg. at noon and Benadryl 50 mg. at noon. Those medications were to reduce his paranoid features and anxiety and impulsivity which apparently he is stabilized on. 2) Medication compliance for the month of February and March both 100%. 3) Will follow lab work closely. 4) Individual psychotherapy, supportive and directive. 5) Psychoeducation. 6) Continue counseling periodically. 7) His AIMS is zero. 8) Otherwise will see him in 90 days. Abbas A. Bawazer, M.D. Consulting Psychiatrist AAB/dw - Trans. 5/1/00 9:14 a.m.

## INTERDISCIPLINARY PROGRESS NOTES

Date & Time	Document significant events during clients course of treatment; implementation of treatment plan and response to treatment. Sign and title all notes.	Dept. or Discipline
1/11/00 cont	In actuality he is in a strong cell for spitting on a C/O.  o) Speech clear and normal flow, mood euthymic, affect appropriate with mood, thought processes appeared logical and goal directed, antisocial attitudes, no apparent cognitive deficit of concentration, calculation, or comprehension, no objective symptoms of SMI, x3. A) No dx of schizoaffective disorder. P) Continue to monitor.	
1/18/00	<p>1/6/00</p> <p style="text-align: right;">Richard Lerner PA/psych. Tr.</p> <p style="text-align: center;">RIGGINS A188-083</p> <p>I reviewed Mr. Riggins chart. It was brought to my attention that he remained on the list for inmates to possibly return to the RTU. I am very familiar with Mr. Riggins as I treated him as his attending psychiatrist for quite some time on the J4 SMI range. Mr. Riggins was discharged from that range because of his highly disruptive behavior and his extreme antisocial personality traits. On 9/30/99 the treatment team discussed his case and determined that principally this inmate was an inmate who exaggerated symptoms of mental illness but who in fact did not appear to be severely mentally ill. At the present time he is on Dr. Bawazer's caseload and is being prescribed Loxitane and Benadryl. Although I am highly suspicious this inmate is not actually severely mentally ill, I will defer to Dr. Bawazer's opinion at this time as he is on Dr. Bawazer's caseload list. Nevertheless, Mr. Riggins should not be returned to the RTU as the risk of him being transferred there and disrupting the entire therapeutic environment far outweighs any potential benefit Mr. Riggins would receive by being sent back there.</p> <p><i>[Signature]</i> Gary E. Beven, M.D. Chief Psychiatrist GEB/dw - Trans. 1/12/00 10:39 a.m.</p>
